Read the following passage and answer questions which follow.

Eventhough globalisation is one of the most discussed topics in the contemporary world, it is not altogether a well defined concept. A multitude of global interactions are put under the broad heading of globalisation, varying from the expansion of cultural and scientific influences across borders to the enlargement of economic and business relations throughout the world. A wholesale rejection of globalisation would not only go against global business, it would also cut out movements of ideas, understanding, and knowledge that can help all the people of the world, including the most disadvantaged members of the world population. A comprehensive rejection of globalisation can thus be powerfully counterproductive. There is a strong need to separate out the different questions that appear merged together in the rhetoric of the antiglobalisation protests. The globalisation of knowledge deserves a particularly high profile recognition, despite all the good things that can be rightly said about the importance of "Local knowledge".

Globalisation is often seen, both in journalistic discussions and in remarkably many academic writings, as a process of westernization. Indeed, some who take an upbeat view of the phenomenon even sees it as a contribution of Western civilization to the world.

Q.46 According to the passage, which one of the following is not a well defined concept?

- (1) Multiculturalism
- (2) Identity
- (3) Globalisation

- (1) (a) and (b) only
- (2) (a) and (c) only
- (3) (c) and (b) only
- (4) (a), (b) and (c)

Q.48 According to the passage, which one of the following is counter productive?

- (1) Comprehensive support to globalisation
- (2) Wholesale rejection of globalisation
- (3) Comprehensive rejection of anti – globalisation protests
- (4) Recognition of local knowledge systems

Q.49 The attempt of the author in the passage is :

- (1) Unconditioned advocacy of globalisation
- (2) Unconditioned rejection of globalisation
- (3) Unconditioned rejection of local knowledge systems
- (4) Unbiased evaluation of globalisation

Q.50 According to the passage, globalisation is perceived often by media and academia as :

- (1) Supporting local knowledge systems
- (2) Detrimental to local knowledge systems
- (3) A process of Westernisation
- (4) A process of facilitating global bussiness
